ABOUT ARTH SOCIETY

Action Research & Training for Health (ARTH) is a 29-year-old non-profit organization based in Udaipur, dedicated to serving the healthcare needs of low-income communities across rural Udaipur and Rajsamand districts. Guided by a Governing Board comprising senior physicians and medical college faculty, ARTH delivers reproductive, neonatal, child, and elderly healthcare services. Beyond clinical care, the organization actively trains doctors, nurse-midwives, and community health workers, and conducts applied research across diverse areas of reproductive health.

OUR RURAL HEALTH CENTRES

ARTH operates three well-equipped rural health centers, each staffed by well-trained, locally resident nurse-midwives:

Iswal	**Suawato ka Guda**	**Lakhmavaton ka Guda**
District Udaipur	District Udaipur	District Rajsamand

ROLE OVERVIEW & TERMS OF ENGAGEMENT

We are seeking an experienced Consultant Obstetrician – Gynecologist to provide outpatient services at our rural clinics two days per week. ARTH will provide a dedicated vehicle for travel to and from the field areas. The key terms and conditions of the engagement are outlined below:

01 **Rural primary care setting:** The health centers operate in a rural, primary care environment. The consultant is expected to examine patients (~90% with reproductive health needs) and provide appropriate clinical care. Services are offered to patients and clients at a nominal cost, inclusive of medicines at no extra charge.

02 **Escorted referrals & diagnostic support:** Patients requiring further investigations, inpatient admission, or surgery receive escorted referrals by ARTH staff to Government Zanana Hospital, Udaipur. Additionally, designated private laboratories have been empanelled to offer diagnostic investigations at discounted rates.

03 **Visit schedule & clinic hours:** The consultant is expected to depart from Udaipur by 9:15 AM, reach the rural health center between 10:00 AM and 10:30 AM (depending on distance from the city), remain at the health center until 4:00 PM, and return to the city by 5:00 PM – 5:30 PM.

04 **Obstetric referrals & telephonic consultation:** Staff nurse-midwives independently manage 80–100 deliveries per month, of which 8–10% require referral for complications. The consultant is expected to review referred patients during scheduled health center visits and remain available for telephonic consultation regarding obstetric referrals.

Contact information

An honorarium will be provided for each visit, in accordance with the organization's guidelines. Experienced doctors with an interest in serving rural and tribal communities are warmly invited to get in touch:
